

Bonfire eBidding

Bonfire eBidding provides the tools to manage your bids and RFx, from posting and receiving structured vendor submissions, to efficiently evaluating and awarding.

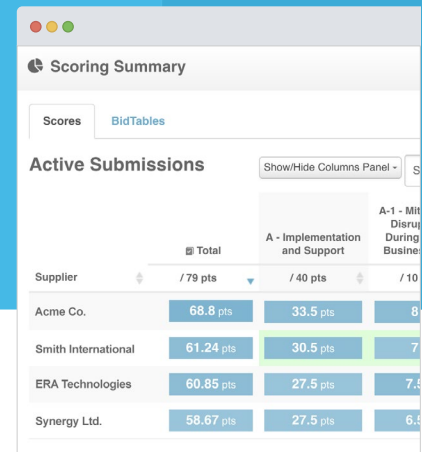

Get the right vendors involved

Bonfire's easy-to-use portal allows you to post solicitations, invite vendors, and receive submissions in one online location.

Evaluate online

Flexible evaluation workflows support your entire evaluation process online, providing a simple way to involve evaluators, collect scores, and facilitate a decision.

Access airtight audit trails

Every step of the process is captured in exportable audit reports, giving you peace of mind that your decisions are defensible.

Easy-to-launch and easy-to-use

Clients are up-and-running within weeks, with no IT resources required. Bonfire's industry-leading client support team is here to support all users, including vendors and evaluators.

Post, Solicit, and Receive

Customizable bid and RfX set-up

- Run simple one stage bids or multi-phased RFPs
- Collect the right vendor data and documents
- Include and enforce declarations or mandatory terms and conditions for vendors

Easy vendor communication

- Match and invite vendors by location or commodity code
- Manage communication, Q&A, post addenda

Frictionless submission process

- Average first-time vendor submission takes 8 minutes
- Intuitive checklist to guide vendors and ensure complete submissions
- Supports all file types with no file number limit

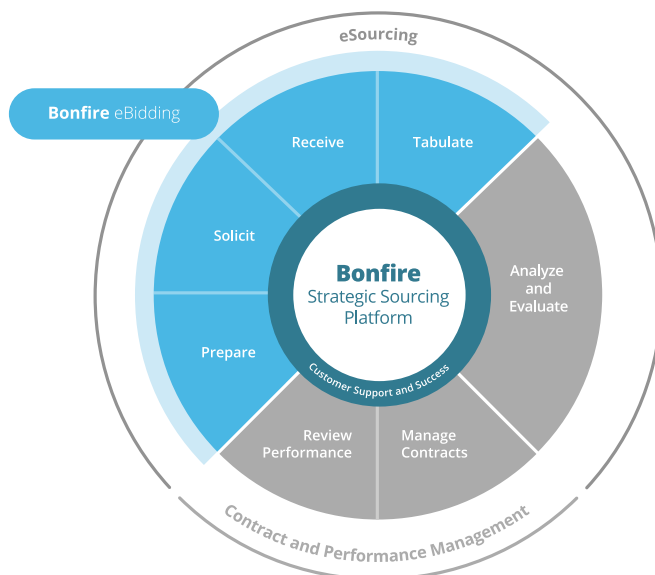

Evaluate, Award, and Report

Flexible evaluation workflows

- Custom weighted criteria
- Evaluation groups to separate and send related documents and scorecards only to relevant stakeholders
- Built-in Conflict of Interest (COI) and Non-Disclosure Agreement (NDA) declarations

Efficient evaluations, confident decisions

- Easy-to-use: often, no formal training is required for evaluators
- Automatic tabulation of evaluator scores
- In-platform communication with evaluators
- Consensus reporting highlights areas of score disagreement

Close the loop on your sourcing decisions

The full **Strategic Sourcing Platform** includes additional purpose-built tools to enhance your online evaluation process, unlock more time savings, and put more of your active spend under management.
